

`std::false_type`

The diagram illustrates a relationship between two C++ types. At the top, a white box with a black border contains the text `std::false_type`. Below it, a gray box with a black border contains the text `detail::is_compatible_array_type_impl< BasicJsonType, CompatibleArrayType, typename >`. Two blue arrows point upwards from the gray box to the white box, indicating that the gray box inherits from or is a specialization of the white box.

`detail::is_compatible
_array_type_impl< BasicJson
Type, CompatibleArrayType,
typename >`
