

type

```
graph BT; A["dt_msgs.msg._collision_alert.Metaclass_CollisionAlert"] --> B["type"]
```

A diagram illustrating a relationship between two Python classes. At the bottom, a gray rectangular box contains the text `dt_msgs.msg._collision_alert.Metaclass_CollisionAlert`. Three blue arrows originate from the top edge of this box and point upwards to a white rectangular box with a black border at the top. This white box contains the text `type`. The arrows represent inheritance, indicating that `dt_msgs.msg._collision_alert.Metaclass_CollisionAlert` inherits from `type`.

`dt_msgs.msg._collision
_alert.Metaclass_CollisionAlert`
