

```
doctest::detail::types  
::false_type
```

A diagram illustrating a relationship between two C++ type aliases. A light gray box at the bottom contains the text `doctest::detail::types::is_rvalue_reference< T >`. A blue arrow points vertically upwards from the bottom box to a white box at the top. The white box contains the text `doctest::detail::types::false_type`. This indicates that `doctest::detail::types::is_rvalue_reference< T >` inherits from or is a specialization of `doctest::detail::types::false_type`.

```
doctest::detail::types  
::is_rvalue_reference< T >
```
