

build/dt_core/_deps
/nlohmann_json-src/tests
/src/test_utils.hpp

```
graph TD; A["build/dt_core/_deps  
/nlohmann_json-src/tests  
/src/test_utils.hpp"] --> B[cstdint]; A --> C[fstream]; A --> D[vector];
```

The diagram illustrates a dependency structure. A top-level box contains a file path: `build/dt_core/_deps/nlohmann_json-src/tests/src/test_utils.hpp`. Three blue arrows originate from the bottom of this box and point to three separate boxes below it, labeled `cstdint`, `fstream`, and `vector`.

`cstdint`

`fstream`

`vector`
